

*In Conjunction with EFIC 2017
IASP Acute Pain Special Interest Group*

Satellite Symposium: Pain After Surgery

The symposium offers a line-up of invited world-renowned speakers in the area of postoperative pain management. The program will address the latest progress in postoperative pain management and a vision of things to come. Other important topics will be the progression of acute postoperative to chronic post-surgical pain, risk factors for such a progression and possibilities for its prevention and treatment.
