We invite you to take part in this meeting that brings you together with the world’s leading experts in pain. The EFIC congress, through the combined efforts in research, education and training, will certainly induce changes in your view on the complexity of pain and the treatment of your patients.

According to the motto of the congress: Bringing Pain Relief to All Patients we kept in mind throughout the planning of the various streams of topics that, beside the highly ranked evidence, also rare techniques, interventions, drugs and CBTs that potentially help a patient should at least be spotlighted. This will indeed foster critical discussions on interventional techniques like blockades, surgery, neuromodulation, but also acupuncture, hypnosis and other strategies, and the value to the proper recognition of pain.

**SCIENTIFIC PROGRAMME SESSIONS WILL INCLUDE:**
- Plenaries, Debates, Workshops, Meet the Experts, Refresher Courses, Special “Topic of the Day”, and more....
- SCIENTIFIC PROGRAMME HIGHLIGHTS:
